## PROFESSIONAL SUMMARY

Entry-level Software Developer with Advanced Certificate in Software Development (GPA 3.70). Built full-stack and mobile apps using Java, React, Android, Python, SQL/SQL Server; strong client-facing background and focused on clean, reliable code.

## TECHNICAL SKILLS

### Languages

Java, JavaScript, Python, SQL, C++, HTML/CSS

### Databases

SQLite, SQL Server

### Frontend

React, Responsive Design, Vite

### Tools & Concepts

Git, GitHub, Android Studio, RecyclerView, XML (ConstraintLayout), CRUD, JOINS, Input Validation, Error Handling

## PROJECTS

### Mood Tracker Android App

Java, Android Studio, SQLite, RecyclerView

- Used SQLite CRUD operations to create/read/update/delete mood entries across sessions.
- Designed clean UI with XML (ConstraintLayout) and reusable components for smooth navigation.

### Polling Place Finder Desktop App

Python, Tkinter, SQL (pyodbc + SQL Server)

- Built a Python/Tkinter desktop app for polling place lookup by ZIP code and precinct using SQL Server data.
- Designed normalized schema + SQL JOIN queries; added input validation and clear error messages.

### Responsive Portfolio Website

React, JavaScript, HTML/CSS, Vite

- Built and deployed a responsive React portfolio with reusable components and links to live demos + GitHub.

## EDUCATION

### Advanced Certificate in Software Development

Harold Washington College, City Colleges of Chicago

Relevant Coursework: OOP (C++), Client-Server Databases (SQL), Web Development, SDLC | GPA: 3.70/4.00

Dec 2025

Chicago, IL

### B.A. in Jurisprudence (Law)

Rostov State University of Economics

Jul 2021

Rostov-on-Don, Russia
