PROJECTS

Mood Tracker App (Android) — Java, Android Studio, SQLite, RecyclerView | Repo: github.com/Alina201998/Mood-Tracker-AndroidApp

- Built an Android mood-tracking app allowing users to log mood, date, and optional notes (5 mood options).
- Persisted entries locally using SQLite with a database helper for CRUD operations.
- Displayed saved entries in a RecyclerView history screen with delete functionality.
- Created a statistics screen summarizing weekly and monthly mood counts and implemented a splash screen.

Polling Place Finder (Desktop App) — Python, Tkinter, SQL | Repo: github.com/Alina201998/polling-place-finder

- Developed a Tkinter desktop application to locate polling places by ZIP code and precinct.
- Designed a relational schema (2 tables) and wrote SQL JOIN queries to return accurate results.
- Added input validation and error handling to improve reliability and user experience.

Portfolio Website (React) — React, JavaScript, HTML/CSS (Vite) | Live: alina201998.github.io | Repo: github.com/Alina201998/Alina201998.github.io

- Built and deployed a responsive portfolio website showcasing projects, skills, and contact information.

- Implemented reusable components, smooth navigation, and mobile-friendly styling for recruiter-friendly viewing.
- Deployed via GitHub Pages and optimized layout for quick recruiter scanning on desktop and mobile.
