

ALINA KIPTENKO

Full-Stack Software Engineer | AI-Integrated Applications

alinakip20@gmail.com | (464) 204-5881 | Miami, FL | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-stack Software Engineer who relocated to the U.S. in 2022, learned English, and completed an Advanced Certificate in Software Development (GPA 3.70/4.00) while independently building three full-stack, mobile, and desktop applications. Built and shipped a full-stack AI tool integrating the OpenAI API end-to-end, from prompt design through a production REST API, validated through real user testing. Uses AI-assisted coding tools (ChatGPT, Claude) as part of a daily development workflow. Known for a figure-it-out approach: fast independent learning, rigorous testing, and a consistent record of eliminating defects before shipping.

TECHNICAL SKILLS

- Languages: Java, JavaScript, Python, SQL, C++, HTML/CSS
- AI Tools & Workflow: OpenAI API Integration, Prompt Engineering, ChatGPT, Claude (AI-assisted development)
- Frontend: React, Responsive Design, Vite
- Databases: SQL Server, T-SQL, SQLite, Multi-Table JOINS
- Tools & Concepts: Git, GitHub, Android Studio, CRUD, Debugging, Input Validation, Agile/Scrum

PROJECTS

LinkedIn Post Generator (AI/ML) —

React, Node.js, Express, OpenAI API

- Engineered a full-stack AI pipeline connecting a React frontend to a Node.js/Express backend through a REST API, turning a single input into 2–3 tailored post variations
- Iterated on prompt structure after early versions produced generic, unusable output — validated final quality through structured testing with multiple users beyond personal use, who rated results as usable with minimal editing
- Built the REST API layer to support multiple concurrent generation requests

GitHub: <https://github.com/Alina201998/linkedin-post-generator>

Live Demo: <https://linkedin-post-generator-rho.vercel.app>

Mood Tracker Android App —

Java, Android Studio, SQLite, RecyclerView

- Applied object-oriented programming principles in Java to build a full CRUD Android application
- Designed and executed test cases covering 7+ edge cases, eliminating crashes across every scenario tested

GitHub: <https://github.com/Alina201998/Mood-Tracker-AndroidApp>

Polling Place Finder Desktop App —

Python, Tkinter, SQL Server (pyodbc), T-SQL

- Built a Python/Tkinter application querying a SQL Server database via multi-table JOINS and T-SQL to return accurate polling location data
- Wrote test cases to validate query results against expected data, eliminating inaccurate output during testing

GitHub: <https://github.com/Alina201998/polling-place-finder>

PROFESSIONAL EXPERIENCE

- Legal Consultant/Advisor, EMERCOM (2021–2022): Handled case files and incident records, ensuring legal accuracy and regulatory compliance
- Front Desk Receptionist, Sport Plus / Prime SportClub (2019–2020): Processed high-volume client billing and scheduling with zero errors

EDUCATION

Harold Washington College, City Colleges of Chicago —

Jan 2023 – Dec 2025 | Chicago, IL

- ESL Program (Jan 2023 – 2024) → Advanced Certificate in Software Development (Aug 2024 – Dec 2025), GPA: 3.70/4.00
- Coursework: OOP (C++), Client-Server Databases (SQL), Web Development, SDLC

B.A. in Jurisprudence (Law) — Rostov State University of Economics

Jul 2021 | Rostov-on-Don, Russia

Work authorization: Authorized to work in the U.S. (green card, no sponsorship required), willing to relocate. Languages: Russian (Native), English (Fluent).
